Mr. See made two short jumps successfully in the early morning hours and abit of a hopis the middle of the afternoon. At the peginning of a second attempt at an afternoon flight Roe's triplane showed no saxiety to lift and when the Englishman gromptly made a landing a wheel buckled smooth him, causing the forward braces of the aeroplane to dig into the mud and Neither Kearny nor Roe was

Grahame-White, the English aviator Boston ever had any doubts of the superiority of the Englishman over all the aviasors in the entire world—and this neighborhood hasn't had any such doubts ever since it learned of his nationality, his hyphen and his pronunciation of the day had lost the doubts.

The result was much more remarkable than those at Shesphead Bay recently, said Mr. Horton. A number of spectators were called to the receiver and heard the message as sent by Mr. McCurdy.

This morning, just after daybreak, Chief Lang. Soston ever had any doubts of the superi-

Even when the Engishman offends against aviation rules to the extent of saling only about twenty feet directly above the upturned faces of thousands or when he shoots the length of parking spaces directly on a level with and only a few feet in front of the hundreds of automobilists so that all may have a regular treat. Boston's enthusiasm is aroused to the extent of displaying emotion and add all the points possible in various hiests so that when each day's marks.

Tapajoz caught in the forward rigging two of the micro-organism which destroys of the colliding schooner, but this did not the bacteria which are essential to fertility.

The control of the distriction of the control of th

MOTOR CARS What is your conception of "value" in Suits for Men?

Some are blinded by price. They are too prone to consider "value" as expressed in the mere lowness of the price without regard to what it pays for.

Others define "value" as integrity of quality in the materials, with no thought of how such materials have been treated at the hands of the tailorman.

Still others bound their ideas of "value" by the superficial appearance of a suit without regard for its internal construction or the length of service it will give. Each of the above views is distorted.

Lowness of price when considered in direct relation to the quality of materials, individuality of style, and craftsmanship of the highest order, presents the sum total of all that is desirable in the selection of your apparel. You will find a combination of these features exemplified in our exclusive models of
